2012 Catalog

Welcome to Confederate Veteran Uniforms! We are a new company made up of two SCV members with a dream – to attire the Sons of Confederate Veterans in a distinctive, traditional but functional uniform that will strengthen the ties of our fraternity while advertising the organization as a whole. The United Confederate Veterans adopted a cadet grey uniform and grey Stetson hat in the early 1890's with distinctive Confederate Battle flag buttons and "SCV" hat wreath. For many of these veterans it was not only the only uniform they ever had, but was in many cases was their "Sunday-go-to-meeting clothes." By the 1920's the UCV uniform was styled as a 3-piece cadet gray wool suit with open lapels. What many compatriots do not know is that the Sons of Confederate Uniforms adopted a similar uniform, save with "SCV" insignia. It is this uniform we hope to offer to our compatriots at a reasonable price.

We are working with a North Carolina clothing manufacturer to make the uniforms – yes the uniforms will be made in Dixie. We estimate that a 3 piece uniform should cost no more than a comparable wool suit at "Men's Wearhouse." We are also researching wool manufacturers and an American hatter.

The first uniform, which was custom made, has been sent to the pattern makers who will make industrial patterns in every size – these patterns will be sent to the clothing manufacturer who will make a proto-type uniform in every size – once the kinks are worked out, we go into production.

BUT – to get started we need an initial order of about 700 yards of wool (at about \$8/yard) plus other start-up costs. That's where we need your help! By selling approved SCV Buttons & hat wreaths – we hope to raise the necessary start up costs to go into production for the uniforms

SCV BUTTONS FOR SALE!!

Our first buttons, small and large have arrived

And are **AVAILABLE NOW**
